THE news from Little Rock in this morning's APPEAL is cheering. The Democratic State Central Committee, The Threatened Riots in New York and Jerafter a protracted session and thorough discussion, have agreed that they have no right to interfere with what belongs solely and entirely to a superintendent kelso's order in National Convention of the party.

The attention of our readers is di- result of their deliberations was emrected to the notice of Mr. Wallace, bodied in orders issued by Superintendent Kelso late last evening.

The attention of our readers is dressed in orders issued by Superintendent to assemble at their headquarters in Brooklyn, to-morrow morning, in full affect the price of Rock Island stock. attorney and agent, to procure subscriptions for the Raleigh narrow gauge rallroad. This is an enterprise John J. Bond, Grand Master of the that we think commends itself to our Orange order, embodying the same people without, and does not need a word of favorable comment. It is necessary to the development of one of our most delightful suburbs; necessary to bring the healing waters of a grateful spring within the reach of all. That it will pay there can be finally determined to prohibit the no doubt. That question has been parade. A few outside of the police settled by many among the most ex-pert of our railroad builders and pro-night, were almost unanimous in degressionists. The line of the road nouncing it as a cowardly surrender will traverse the northern limits and it was confidently anticipated of the city through Cheisea and that public opinion would strongly so on to Raleigh through a rolling and disapprove of this concession to lawdiversified country. It will pay the demned alike by their religious teachproperty owners along the line, the ers and their intelligent political leadproperty owners of Memphis and Ra- ers. leigh, and the people generally. In any light in which one views this narrow gauge enterprise to Raleigh, there is money in it, and we hope Mr. | Wednesday, will not take place. Su-Wallace will be successful, and that, too, without much labor. All the stock necessary should be subscribed sion of the order of the order of the order. within a few days, and without the parties comprising the target compaexpending of a great deal of argument nies represent that portion of the railroad speaks for itself.
